### About The Rhys Lewis Athletics Legacy Fund:

Rhys David Lewis was born on December 23<sup>rd</sup> 2008. Rhys was born with Achondroplasia, the most common type of dwarfism (a little person). He was the most amazing kid most people have ever met. Incredibly funny and out going, he loved all sports and he would walk around showing anyone who would look his skills like how he threw a baseball, kicked a soccer ball or put up his little fists and showed you how he could box... Living for only a short three and a half years he touched the lives of everybody he met.

A special fund was established in his memory through The Little People of British Columbia to help fund and promote excellence amongst Little People in British Columbia. Contributions can be made payable to Little People of British Columbia, with mention "Rhys Lewis Legacy Fund" in the memo field, and mailed to:  
Little People of British Columbia
